

# Controlled Quality Veal

Quality assurance in  
the veal sector (SKV)

Van van der Weg

# The SKV's objective

“To guarantee the quality of calf feed and veal that has been produced according to current quality regulations, in order to better serve the interests of the consumer and to stimulate the sale of veal produced under supervision.”

Controls are carried out at:

1. Producers of powdered milk for calves
2. Veal calf farmers
3. Slaughterhouses

# SKV audit programme (1)

1. High audit intensity: 2.5 audits per group of calves.
2. Identification and Registration of calves.
3. Samples taken from 30% of veal calf herds.
4. Analyse for any forbidden growth promoters.
5. When all criteria are met, issue of the SKV quality certificate.

## SKV audit programme (2)

6. Slaughtering only by SKV calf slaughterhouses.
7. SKV slaughterhouses stamp an SKV logo on the carcasses. An example of the stamp for veal (white) is given:

Rosé has a different stamp:

8. Fines are imposed if the rules are violated.
9. ISO 17020 (I034) and NEN 45011 (C318) accreditation.
10. SKV affiliates are also IKB participants.
