

Keeping your files up to date, a winning solution!

The team at **ATQ** would like to remind you of the importance of keeping your livestock inventories up to date at all times, and following are some suggestions of free solutions to simplify your life:

- To have direct access to your files in real time, **use the ATQ Direct website** at: **www.agri-traçabilite.qc.ca** Call client services for your password.
- If you do not have access to the Internet, you can receive partial or complete summaries using the new telephone inventory system at **1-866-270-4319**. You can even subscribe, on a monthly basis, to the different services offered - for free!
- Get into the habit of checking your file every month, and, if required, immediately making any essential adjustments.
- Even though the regulations only require the declaration of arrival for your animals, we recommend that you declare departures as well as it allows ATQ to perform additional verification and find any errors sooner. It also permits the proper validation of declarations entered by your representative, abattoir, auction, etc.
- Do not forget that even if your traceability declarations are done by a representative, you are still entirely responsible for the declarations entered in your name.

Instructions on activating ear tags:

When you activate an ear tag, you must indicate:

- 👉 The 15-digit identification number
- 👉 The sex and birth date of the animal
- 👉 The number of the site where the animal is located
- 👉 Your client number at La Financière Agricole (FADQ #)
