

Map of precipitation in the French West Indies (Martinique, Guadeloupe, and the Leeward Islands) on May 28, 2004. The map shows precipitation intensity in millimeters using a color scale from blue (0 mm) to red (80 mm). Numerous numerical values are scattered across the map, indicating specific precipitation measurements at various locations. An inset map shows the location of the Leeward Islands (Iles de la Madeleine) in the Gulf of Mexico.
